ABOUT THE ALBUM

Chicago artist Fa'Darryl turns the idea of a "different world" into a musical syllabus for real life. Written and produced by Fa'Darryl Brown, Season 1: Brand Nu Life blends Rhythm & Gospel, inspirational R&B, soul, hip-hop and choir-driven gospel into a 13-track journey through identity, faith, love, disappointment, resilience, purpose and new beginnings. Featuring Mykah Estelle and Generation NeXus, the album speaks directly to a generation navigating a noisy world with one clear message: your circumstances do not have to become your final destination.

WHY THIS ALBUM, WHY NOW?

Young people are being asked to define themselves before they have had room to discover themselves. This project meets that pressure with music that is hopeful without being naïve, faith-rooted without losing a contemporary edge, and honest about the work of becoming. Inspired by the cultural legacy of A Different World, it carries forward themes of education, identity, community, friendship, Black excellence and purpose for a new generation.

PRIORITY RECORDS

A Different World - the album thesis; a reflection on the world across generations

Control (Alt Delete) - immediate hook; radio-forward contemporary gospel/R&B

More - the emotional center; reflective testimony on the pursuit of happiness

Brand Nu Life - the youth anthem; redemption, forgiveness and new beginnings

Run On x Hold On - the choir moment; a full-bodied anthem of perseverance

BEYOND THE STREAM

Built to extend into high-school and college listening sessions, HBCU and campus activations, youth songwriting workshops, choir clinics, resilience conversations, scholarships, back-to-school campaigns and the "Brand Nu Life" testimony campaign. The music starts the conversation; the activation carries it forward.

FA'DARRYL BROWN

Chicago-based singer, songwriter, playwright, actor, producer and creative entrepreneur; founder of FaDarryl Music and the Paint the World Project; pioneer of the "Rhythm and Gospel" sound.
